DETAILED ACTION

Applicant's amendment filed 3-26-02 (Paper No. 7) is acknowledged and has been entered. However in view of applicant's cancellation of claim 1 and addition of new claims 92-137 in said amendment, a new restriction requirement has been applied.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

A) A plasmid comprising a sequence unique to SEQ ID NO:1, 3, 5 or 7 or the complement thereof, or a plasmid comprising a sequence unique to SEQ ID NO:9, 10, 11, or 12;

Applicant is required to elect a **specific group** of sequences ie either the group comprising SEQ ID NO:s 1, 3, 5, or 7 or the group comprising SEQ ID NO:s 9, 10, 11 or 12, as recited in newly added claims 92-101 and 124-137. It is noted that the first group of sequences are genomic and the second group are cDNA.

B) A plasmid comprising an oligonucleotide comprising a sequence unique to SEQ ID NO:1, 3, 5 or 7 or a plasmid comprising an oligonucleotide comprising a sequence unique to SEQ ID NO:9, 10, 11, or 12;

Applicant is required to elect a **specific group** of sequences ie either (SEQ ID NO:s 1, 3, 5, or 7 as recited in newly added claims 102-112 , or SEQ ID NO:s 9, 10, 11 or 12 as recited in newly added claims 113-123. It is noted that the first group of sequences are genomic and the second group are cDNA.

C) A plasmid comprising an oligonucleotide comprising at least 8, 9, 10, 11, 12, 13, 14, 15, 16, 17 or 18 consecutive nucleotides;

Regardless of which group is elected in part B of this species requirement, applicant is required to elect a plasmid comprising an oligonucleotide comprising a **specific number** of consecutive nucleotides such as one of the numbers recited in newly added claims 102-123.

D)) A plasmid comprising an oligonucleotide comprising a sequence unique to SEQ ID NO:s 1, 3, 5, or 7 or to SEQ ID NO:s 9, 10, 11 or 12;

Regardless of which group is elected in part B of this species requirement, applicant is required to elect a plasmid comprising an oligonucleotide comprising a **specific sequence** unique to SEQ ID NO:s 1, 3, 5, or 7 or to SEQ ID NO:s 9, 10, 11 or 12.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, all newly added claims 92-137 are generic in at least one aspect.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
